Hola Rebecca!

Hope you are well. As far as I know the sampling activities for this week at the former Reto Plants are part of the SVG sampling. We tried to collect this samples before but RETO stated that they couldn't because they had an internal audit so we postponed the samples for this week. If this is true (I'm cc'ing Susan so she could verify this info) then you already have the workplan. If not she will forward the GW and Soil sampling info by email.

thanks
